Your Ontario Perception of Care 2018 survey results Child, Youth, and Emerging Adult Program

What is the Ontario Perception of Care Survey (OPOC)?

Each year, we ask patients and families to tell us about their care at CAMH by completing the OPOC survey. The valuable feedback we receive helps us understand what we are doing well, and where we need to make improvements.

For example, patients have said that they want better inpatient programming. In response to patient feedback, CAMH is constructing the Therapeutic Neighbourhood as part of hospital redevelopment to provide programming that:

- meets patients' interests and goals
- is more accessible
- is more frequently offered
- is more skills based.

The Therapeutic Neighbourhood will be a dynamic, interactive environment for learning new skills.

Overall experience

We heard you say that...

WHAT'S GOING WELL...

- Programs accommodate your accessibility needs.
- Spaces are clean and well maintained.
- The facility is welcoming, non-discriminatory, and comfortable.
- You are treated respectfully and staff believe you can change and grow.
- You help decide on treatment and supports.
- You know that participation in activities is optional.

WHERE WE CAN DO BETTER...

- You need more information about how to make a formal complaint.

WHAT'S ALSO GOING WELL...

- Staff are knowledgeable and competent.
- You are given private space for discussions.

WHERE WE CAN ALSO DO BETTER...

- You want more comfortable bedroom areas.
- You want more activities during free time.
- You need more help with discharge plans that identify supports and better meet your needs.
- You want services at more convenient times and locations.
- You want more alternative services.
